Lighting Retrofit Incentive Application for Business Customers

A Cash Incentive Energy Efficiency Program brought to you by:

CITY OF AFTON

Instructions for Use:

For complete instructions, please refer to the Terms and Conditions on page 2.

Step 1: Determine Eligibility. Equipment must be new and installed in a business. Only new products that are exact product types listed in this application form are eligible for prescriptive incentives described in this application. **If the potential incentive is greater than $2000.00, review and pre-approval from the participating utility is required.** Contact the utility to get pre-approval.

Step 2: Install Equipment. New equipment must be installed and old equipment properly removed and disposed of. Old equipment must not be installed elsewhere.

Step 3: Complete and sign the application. Complete the application and attach copies of all project invoices, including labor costs. Include the manufacturer (OEM) specification sheets for lamps, ballasts, fixtures, sensors and controls installed.

Step 4: Submit completed application. A completed application and all supporting documents must be received by The Utility within 90 days of installation. Incomplete applications will cause delays in payment or denial of the application.

Email the application and all supporting documentation to: aftonutility@windstream.net

OR

Mail or fax the application and all supporting documentation to:

Please note: Afton Municipal Utilities will be referred to as "The Utility" throughout this document.

Lighting Retrofit Incentive Application for Business Customers

ELIGIBILITY:

• Commercial, industrial, and governmental customers who purchase electricity from The Utility are eligible to participate in the Lighting Retrofit Incentive Program. Eligible equipment must be connected to an electric service billed under a commercial or industrial rate class by The Utility. Excludes equipment for residential spaces such as apartments.

• This program is applicable only to equipment that meets the detailed equipment specifications and requirements described in this application. The Utility will determine, in its discretion, whether such specifications and requirements are satisfied.

• This program is applicable for indoor lighting systems that operate during daytime hours for a minimum of 1,800 hours per year. Incentives under this program are available for retrofits in existing buildings only

• For new construction projects, a limited number of lighting incentives are available under the Afton Municipal Utility rebate program.

• Customers may not receive more than one incentive for each piece of equipment installed under this program or any combination of Afton Municipal Utility rebate programs.

TERMS AND CONDITIONS:

1. Incentive Offer: Projects, including all required installation, must be completed by December 31 of year listed above. A signed application and itemized invoices for materials and labor must be submitted to the participating utility at the address located on the cover page of this application **within 90 calendar days of project completion.** Please keep a copy for your records.

2**. Proof of Purchase: This application must have complete information and be submitted with an invoice(s) itemizing the new equipment purchased and labor costs. The invoice(s) must indicate date of purchase, size, type, make, model and total project cost. Manufacturer (OEM) specification sheets for lamps, ballasts, fixtures, sensors, and controls must also be included.**

3. Compliance:

a) All projects must comply with federal, state, and local codes.

b) All equipment must be new or retrofitted with new components per the program specifications. Used or rebuilt equipment is not eligible for incentives. Existing equipment must be removed and properly disposed of.

c) Equipment must meet specification requirements and be purchased, installed and operating prior to submitting an incentive application.

d) Customers may only receive one incentive per piece of qualifying equipment.

e) All projects for which more than $2,000 in incentive payments is sought must be approved by The Utility prior to the commencement of the project. Receipt of pre-approval does not guarantee incentive payments will be made. Incentive payments will be made only upon the customer's satisfaction of all terms and conditions of this program.

f) All terms and conditions of this application must be satisfied by the customer.

4. Payment: Once completed paperwork is submitted, incentive payments are usually made within 4-8 weeks. Incomplete applications will either delay payments or be denied. The Utility reserves the right to refuse payment and participation if the customer or the customer's contractor violates program rules and procedures.

5. Inspection: The Utility may conduct an inspection of the customer's facility to survey any installed projects. All projects exceeding $2,000 of incentives will be inspected prior to incentive payment. The Utility may inspect customer records relating to incentives sought by the customer.

6. Information Sharing: The Utility reserves the right to publicize your participation in this program, unless you specifically request otherwise in writing. Information contained in this application may be shared with state boards, commissions, or other departments.

7. Program Discretion: Incentives are available on a first-come, first-served basis. This program and its incentive amounts are subject to change or termination without notice at the discretion of The Utility. Neither pre-approval of a project, nor any other action by The Utility, will entitle a customer to an incentive payment until the application is finally approved by The Utility.

8. Disclaimers: The Utility

a) does not endorse any particular manufacturer, product, labor or system design by offering these programs;

b) will not be responsible for any tax liability imposed on the customer as a result of the payment of incentives;

c) does not expressly or implicitly warrant the installation or performance of installed equipment or any contractor's quality of work (contact the equipment manufacturer or contractor for warranties);

d) is not responsible for the proper disposal/recycling of any waste generated as a result of this project;

e) is not liable for any damage, injury, or loss of life arising from or relating to the removal, installation, or operation of any equipment, or any other action taken by the customer or The Utility, in connection with a project undertaken by the customer under the programs described in this application;

f) does not guarantee that a specific level of energy or cost savings will result from the implementation of energy efficiency measures or the use of products funded under this program.

INCENTIVE LIMIT:

• Eligible customers may purchase and install qualifying equipment and receive an energy efficiency incentive of up to $5,000 per customer, per calendar year. Payments for larger incentives may be allowed at the discretion of The Utility.

• An incentive exceeding $5,000 must receive written approval from The Utility BEFORE project commencement.

• Total incentive will not exceed 75 percent of the project cost, including installation.

• Incentives for particular items of equipment and/or systems are limited as set forth in this application.

General Equipment Eligibility

- All fixtures must operate a minimum of 1,800 hours per year to be eligible.
- The installation of energy-efficient lighting and associated equipment must result in a reduction in electric load.
- All equipment must be new or retrofitted with new components per the program specifications and installed in facilities within the service territory of The Utility. Existing equipment must be removed and properly disposed of – not reused or sold for use elsewhere.
- If any equipment listed in this program is required by code, the offer of an incentive for such equipment is null and void.
- All fixtures shall be installed indoors, except where noted.
- All fixture installations must be permanent, except for the installation of screw-in or plug-in lamps.
- All fixtures, lamps, and ballasts must be UL or ETL listed to U.S. safety standards for operation as installed and must meet all applicable codes and regulations.
- Customers are responsible for the proper disposal/recycling of lamps and ballasts and must appropriately document such disposal as required by this application and applicable law.

H. Controls and Sensors				
Installed Equipment	**Specifications**	**Incentive Per Unit**	**Quantity**	**Total Incentive**
Occupancy Sensors Under 500W Controlled	EXCLUDING occupancy sensors installed to control high or low-bay fixtures (see separate high-bay / low-bay fluorescent and LED sections above). Programmed or rapid start ballasts are highly recommended for controlled fluorescent fixtures. **PLEASE SPECIFY TOTAL WATTAGE CONTROLLED _____.**	$20.00 Per Sensor		
Occupancy Sensors Over 500W Controlled		$45.00 Per Sensor		
Occupancy Sensors Controlling High-Bay or Low-Bay Fixtures LED or Fluorescent	The high-bay or low-bay occupancy sensor incentive applies only to occupancy sensors added to control high and low bay fixtures.	$10 Per Fixture Controlled		
Occupancy Sensor Controlling LED Refrigerated Case Lighting	Sensors in new refrigerated cases or installed in existing cases. LED must serve as the only source of light for the case. Incentive is per door. Sensor may control more than one door.	$5.00 Per Door		
Central Lighting Control	The total central lighting control incentive is limited to $5,000. Incentive will apply to only one lighting control for any given fixture controlled. Incentive is per connected watt that is being controlled. System should have a temporary manual override.	$0.06/W	Controlled Watts	
Switching Controls for Interior Multilevel Lighting	Incentive is per watt controlled to reduce the load from maximum requirements. Control may be as simple as adding a light switch to turn off some of the lights during certain hours.	$0.04/W	Controlled Watts	
Daylight Sensor Controls	Can incorporate one or more photocells for single or multiple fixtures. Incentive is per connected watt that is being controlled. Not to be combined with Central Lighting Control or Occupancy Sensor Control.	$0.13/W	Controlled Watts	
Note: Incentives are offered for only one type of lighting control for any given light fixture.			**Subtotal**	**$**
